

What does Horizon High School mean to you?

Andy: “Horizon High is probably the best school I have ever been too. The staff here are extremely welcoming and friendly. You start to feel familiar with the environment after only a few days. One hour each day is dedicated to group, and I feel this really helps the students get to know each other, share their issues, get help and get past any shyness. Horizon High means a great place to learn and talk about what you need to get by in life”.
